Maj. Gen. Wood Presents Plan of Reserve Corps and Reserve

An appeal for a Federal university in this city was made by Edmund J. James, of the University of Illinois and president of the National Association of State Universities, yesterday at the opening ession of the eighteenth annual meeting of State Universities at the New Willard Elodes.

meeting of State Universities at the New Willard Hotel.

Special addresses on educational sub-jects are scheduled to be delivered at to-day's session of the association by Pra-dent Wilson, George B. Parkins, Pecra-tary of the Rhodes Echalarship of Ox-ford University, England, who has come here especially for the session, and other prominent educators of the country.

"This association should support strong-ity, in and aut of season, the prodect for the establishment in Washington of a Prederal university, founded by, support-ed by, and controlled by the Federal government." declared President James. "Such an institution would do more to

"Such an Institution would do more to raise the level of university education in the United States than any other possible device. The upposition of State and private universities to the plan is short-nighted to the extreme."

Gen. Leonard Wood, Chief of Staff of the Army, presented to the association a plan for furnishing the army with a reserve corps in time of war through State colleges and universities. Gen. Wood suggested a plan whereby graduates from State universities and colleges would be enrolled in the regular army as second Housenants for one year, with regular pay and allowances. After going through this year's service, he said, these men could be kept on a reserve into the regular army as second leutenants after the graduates of West Point had been provided for.

J. T. Hendrick to Test Consti tutionality of Law in Supreme Court.

UNFAIR TO THE DISTRICT

ision Will Be of Utmost Impo to Capital Motorists Who Use State Roads.

Attorneys Clement L. Bouve, J. H. Balston, and W. E. Richardson, representing J. Thilman Hendrick, a motor senting J. Thilman Hendrick, a motor truck owner, of Washington, yester-day politioned the Supreme Court of the United States to advance their client's case on the docket. The case combate the power of the State of Saryland to tax automobiles doing an interestate business when they enter

as it applies to automobiles owned by Washingtonians and passing over the Maryland roads.

The petition, in part, sets forth:
"While certain provisions of the Maryland statute permit temperary free entry into the State of Maryland by the residents of all States of the Union, without the payment of any license or registration fee, that law specifically provides that this so-called privilege is to be desided to the residents of the District of Columbia, thus discriminating against them as a class.

Wants Case Advanced.

"We submit that the motor vehicle law of Maryland, for violation of which the plaintiff in error was arressed, and which imposes not soly a tax on owners and operators of motor vehicles entering that State, but a registration tax as well, is an unlawful attempt to regulate interstate commerce, and is, in effect, legislation passed for revenue purposes under the guies of a local police regulation, and that the law is invalid in that it discriminates unlawfully against the residents of the District of Columbia.

The Supreme Court is asked to advance the case so that a decision may be rendered before the 1914 tax becomes due in Maryland.

Justice Hughes read an opinion of the court affirming the judgment of the Supreme Court of the State of Vermont upholding the validity of a State law taxing depositors in national hanks on their deposits.

WAR SECRETARY BACK FROM THE CANAL ZONE

Mr. Garrison Expresses Satisfaction Over Trip to Panama—Denies Story of Friction Between Officials.

FORMAL OPENING UNSETTLED

Becwelary of War Garrison hast night returned to Washington from Panama. Regarding his sojourn on the lethmust has Becretary sale:

"If am eatlands with my trip in every war. The onnel is a reupendous and overpowering work, and the very daring of the enterprise is in tree! and the work from end to sale. I discussed at length with the members of the commission the conditions of the work and the problem of the control of the canal guinequest to its being turned over to the uses of the poblem. It is early yet to promise the definite date for the formal opening of the canal. I will not offer a guess, only. Revergers, for the present, we will let that question rest.

"The stories of friction between Col. George W. Goethale and Commissioner Metcalf should be set at rest. The reliations of the builder of the canal with the head of the civil government are cordial, and there are no differences between them.
